

**Final Symposium of the EU FP7 project MEGAPOLI**  
**Megacities: Emissions, urban, regional and Global Atmospheric POLLution and climate effects, and Integrated tools for assessment and mitigation**

Date: 26-28 September 2011

Place: CNRS Headquarters, place d'Auteuil, 16. Arrondissement, Paris, France, Conference Hall

***Preliminary agenda / Session overview***

*Session times may still be adjusted*

*Monday morning, September 26, 9h30 – 12h30*  
*(Sessions always include 30 min coffee break)*

**1. Introduction (1h30)**

- Welcome from CNRS (INSU), project coordinator, local organizer
- Invited keynote speakers
  - Integrating the Air Pollution Control of Megacities with Footprint Regions: Beijing Olympics as an example, Tong Zhu, Peking University
  - Urban air quality trends in a global context, David Parish, NOAA

**2. Results from the MEGAPOLI Paris campaigns (1h)**

- Several overview talks + specific talks from FP7 + France ANR MEGAPOLI-PARIS participants + associated partners

*Monday afternoon, September 26, 14h00 - 17h30*

*still* **Results from the MEGAPOLI Paris campaigns (3h)**

*Monday evening, September 26, 17h30 – 19h00*

**Welcome drink + posters**

---

*Tuesday morning, September 27, 9h – 12 h30*

**3. Urban scale Megacity impact on air quality and climate – the modeling**

**perspective (including emissions and methodological developments) (3h)**

- Results from MEGAPOLI project WP's 1, 2, 4, 7, 8

*Tuesday afternoon, September 27, 14h – 18h30*

**4. Implications for urban / regional AQ + climate management, and urban planning (2h30)**

- Major policy results from the project
- Results from the Airparif/LSCE PARTICULES project (regional vs. local PM sources in Ile-de-France) (Airparif t.b.d.)
- Urban planning for a sustainable megacity (example of Ile de France and the Paris agglomeration) t.b.d.
- Panel discussion with scientists / decision makers / urban planners  
Research needs from an environmental management perspective, benefits from the project

**5. Broader Aspects of megacities at an European scale (1h30)**

- Invited key note speaker :  
Megacities as hot spots of air pollution in the East Mediterranean– Results from the CITYZEN project, Maria Kanakidou, University of Crete
- Results from MEGAPOLI project WP's 4, 5, 7, 8

*Tuesday evening, 20 h, Symposium Dinner*

---

*Wednesday Morning, September 28, 9 h – 12h30*

*still* **Broader Aspects of megacities at an European scale (1h30)**

**6. Megacities on the global scale (1h30)**

- Results from MEGAPOLI project WP's 6, 7, 8

*Wednesday afternoon 14h00 – 17h00*

*still* **Megacities on the global scale (1h30)**

**7. Concluding remarks and Research Perspectives (1h)**
