

2nd Announcement

Final Symposium of the EU FP7 project MEGAPOLI

Megacities: Emissions, urban, regional and Global Atmospheric POLLution and climate effects, and Integrated tools for assessment and mitigation

Date: 26-28 September 2011

Place: CNRS Headquarters, 3 rue Michel-Ange - 75016 Paris, France, Conference Hall

The aim of this Symposium is to present major results achieved within the EU FP7 project MEGAPOLI (<http://megapoli.info>), and generally to discuss the issue of atmospheric pollution in and from megacities with a wider audience of researchers and end-users. Selected keynote presentations from the research community will give a broader picture of research performed within the field. A particular focus will be on the Paris agglomeration, where two major campaigns (July 2009 and Jan-Feb 2010) have been conducted within the project. Urban to global scale modeling results will address the impact of selected European and worldwide megacities on atmospheric composition, air quality and climate, including scenarios of future megacity development. The relevance of the scientific achievements in the project for decision makers will be discussed as well as future key research needs.

Oral presentations are solicited from participants in the FP7 Megapoli project and in the Megapoli Paris campaigns. As available time for individual presentations is limited, please consider giving overview presentations for workpackages and other joint efforts; there will also be a poster session to allow more possibilities to discuss research results. Participants from outside the project are also invited to submit abstracts.

Please submit your registration and eventually abstract as early as possible, but not later than August 25, 2011 using the following link :

<https://spreadsheets.google.com/spreadsheet/viewform?formkey=dFILX1duVTdkRXFpQ1JrZGZodHF6c0E6MQ>

You can find relevant information on the conference on the web sites <http://megapoli.lisa.univ-paris12.fr/NEWS/final-symposium.php> and <http://megapoli.dmi.dk> . See also other documents attached with this mail.

We are hoping to see you soon in Paris.

Organising Committee:

- Matthias Beekmann (LISA-IPSL, Créteil, France; local organiser)
- Alexander Baklanov (DMI, Copenhagen, Denmark; project coordinator)
- Mark Lawrence (MPIC, Mainz, Germany; project co-coordinator)
- Spyros Pandis (FORTH, Patras, Greece; project co-coordinator)
