

2nd Announcement

Urban Air Quality and Climate Change Workshop (UAQCC)

Date: 16.-18. August 2011

Place: KlimaCampus, University of Hamburg, Hamburg, Germany

Organisers:

- K.H. Schlünzen (Meteorological Institute, KlimaCampus, Univ. Hamburg)
- L. Jalkanen, (Chief Atmosph. Env. Res. Div. WMO)
- G. Carmichael (Departm. Chemic. & Biochem. Eng., University of Iowa)
- A. Baklanov (Danish Meteorological Institute, Copenhagen)

Sessions

- 1 Regional climate changes
- 2 Air pollution in urban areas – measurements and simulations
- 3 Urban areas as drivers of the climate system
- 4 Climate and air quality interactions
- 5 Impact of mitigation measures on AQ and urban climate
- 6 Required level of complexity for modelling urban AQ-climate change interactions
- 7 AQ-climate interactions for planners – required accuracy

In all sessions modelling and measurement approaches are welcome. Urban areas in focus of the workshop shall be Beijing, Cairo, Cape Town, Chicago, Delhi, Detroit/Windsor area, Hamburg, Istanbul, Lagos, London, Los Angeles, Melbourne, Mexico City, Moscow, Mumbai, New York, Paris, Pearl River Delta, Po Valley, Rheine-Ruhr, Santiago del Chile, Shanghai, St. Petersburg, Tokyo-Yokohama.

Time table

End May 2011	Registration possible (mail to umet@zmaw.de)
10 June 2011	Deadline for submitting presentations (poster or oral) with title and short abstract (use format provided on web page:)
Begin July 2011	Notification of contribution acceptance
Begin August 2011	Deadline for registration
15. October 2011	Deadline for papers to be submitted for publishing in special issue of Meteorol.Z. (https://www.schweizerbart.de/submit/metz/index.php/metz/index).
